Who we are

Amara Trading Center - ATC was founded in 1977 by the late Ahmad Mustafa Amara and was registered in Jordan under the name ELTAMO as a general trading company. In 1980, the company transformed its business to tackle the emerging need in the Jordanian furniture manufacturing industry by specializing in furniture fittings and hardware. The company started striking partnership with the pioneering companies around Europe to meet the local market demand for high quality furniture fittings and hardware. Today, ATC is the leading Jordanian company for Kitchen Systems, Washroom Systems, Furniture Fittings and Hardware and is continuing to expand its product range to venture into new projects by providing state-of-the art-solutions and products, without compromising high-end quality.

What we do

Our world-class products and solutions would meet all the requirements of the furniture industry, interior designers, hardware dealers, architects, and contractors. Whether it is cabinets, appliances, fittings, accessories (furniture, washrooms or kitchens), locking systems, handles and many other products and solutions; we offer you only the best for your modern day interior.

Vision Statement

To be a household name for furniture fittings and hardware, and to be a perfect fit in the Jordanian real estate industry.

Mission Statement

To provide luxurious, simple, secure products and innovative solutions that cater to different customer needs and tastes.

Major Partners

BLUM: Blum is an international company that specializes in the production of functional furniture fittings. The company's main product groups are lift, hinge, box and pull-out systems for furniture - in particular for kitchen furniture.

Gruppo Pozzi: Gruppo Pozzi provides more than 30,000 types of hardware products and furniture fittings in its catalogue from metal fittings, adjustable feet, joints, plates, rail supports, shelf supports, castors, table legs to every other element that goes into furniture manufacturing.

ITALIANA FERRAMENTA: ITALIANA FERRAMENTA is specialized in the production of high quality accessories and ironmongery for the furniture industry.

GIUSTI: GIUSTI SINCE 1967, GIUSTI S.P.A is a leading european producer of ornamental accessories for furnitures. We are located next to the beautiful Verona and we have been serving the furniture industry since 1967.

CITITERIO GIULIO: has been designing and manufacturing handles and knobs for furniture for more than 75 years. Since 1945 the entire production process takes place in Italy, in our factory located in Renate, in the heart of Brianza. Thanks to this long experience, we are now considered as a leading company in the market by all major players in kitchen and bath industry.

SISCO SISTEM LINE: a leading company in the hardware business, has been standing in the market for 30 years, building up a reliable and meaningful experience in the manufacturing and selling of sliding systems for furniture and doors. The wide range of products, the prompt adaptability to the customer's needs and the steady lookout for new designing solutions make SISCO SISTEM LINE an ideal partner for the furniture industry requirements and also for the wholesalers and retailers specificity. This will lead to a further development of the company potential, either reinforcing its considerable place in the hardware sector or strengthening its sales network in the Italian market.

VILLES2000: The company introduces itself into the field of furniture fitting and accessories, offering always more a wide range of doors sliding systems that is getting constantly rich of new solutions also certified by our design patents. All products "VILLES 2000" are planned and realized internally, using materials of high quality and technologies suitable for making them last long.

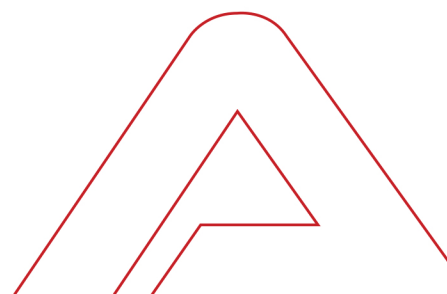

HAILO: Hailo has been dedicated to making work easier and safer for trade and industry professionals and DIY enthusiasts ever since it was founded in 1947. As a leading manufacturer of ladder systems, steps and waste bins, we offer our customers a wide range of innovative products that set standards.

INOXA: INOXA integrates the kitchen living space with solutions that interpret and unite the need to use space to the maximum with practicality and functionality, but also with an appealing look and the pleasure of a modern, refined design. The co-ordinated INOXA accessory lines in steel wire, chrome plated iron and plastic are created with stringent design and construction criteria to transform commonly used objects into innovative solutions that are simple to use and particularly functional.

ATIM: ATIM has served the furniture industry for over 15 years (1996-2016), guaranteeing the quality and functionality typical of the Made in Italy brand. There are numerous patented products: slides for tables, Transformable program, sliding systems for doors and many more.

FURNITAL: FURNITAL was born and raised in the heart of Brianza, north of Milan, where the traditions of "make furniture" and knowledge of wood industries turns into innovations. In 2013 we have started to produce our products as kitchen's accessories. The quality of the materials used, the research of optimized working processes, the attention on details and the new concept of organizing kitchen spaces are the central points of the project and they allowed us to create a unique products range.

HÄFELE: Häfele is one of the leading international companies for furniture fittings, architectural hardware, electronic locking systems and technical hardware device.

SIMONSWERK: SIMONSWERK is a leading European manufacturer of heavy duty, high performance hinge systems and has been producing premium hinges for over 120 years. SIMONSWERK is a German-based company currently serving more than 60 international markets and focuses exclusively on high-end adjustable hinge systems.

DND: A sister company of Martinelli, the company's core business is the production of door and window handles, pull handles, knobs and knockers, an activity backed by its expertise in the brass working processes. To meet the needs of a constantly evolving market, in 1998 the company set up a division called dnd-diffusione nuovo design ("new design diffusion") for exploring new ideas in partnership with leading designers. Handles are thus elevated from mere furnishing accessories to distinctive, prestigious design elements, expressions of the aesthetic taste and personality of the user.

Sab Serrature: S.A.B. Serrature Srl, formed in 1976, born as a locks' manufacturer in an industrial area of the province of Brescia specialized in the locks and doors' accessories production. S.A.B. Serrature Srl works on Italian market and exports its products in more than 60 countries all over the world.

OLIVARI: Since 1911 Olivari has been manufacturing handles as its own factories in Italy where the entire production process takes place. Starting with brass billets, the handles are forged, milled, polished, buffed, chrome-plated and hallmarked with a laser. Olivari has attained ISO 9001 and ISO 14001 certifications. Through it uses the most advanced technology, Olivari preserves all the artisanal wisdom it has accumulated in 100 years of history.

CONVEX: Founded in Greece in 1973, the company's product range extends from door handles & knobs, furniture handles & knobs, fireplace accessories and curtain accessories. The company has an extensive network of dealers throughout Greece. The export activity of CONVEX targeted at countries like Cyprus, Albania, Belgium, Bulgaria, the United Arab Emirates, Bahrain, Saudi Arabia, Qatar, Jordan, Egypt, Tunisia, Morocco, Russia, and Ukraine.

ANSELM: Founded in 1973, the company is a member of the SIMONSWERK group and with its range of hinge systems offers high-quality for high demands in terms of flush surfaces in living areas.

FRISTJURGENSEN: The FristJurgensen pivot-door hinges can be applied in almost every door: from wood and metal to plastic and glass. And if desired, in sound proofed and fire-resistant doors. Our systems are characterized by a simple and fast assembly in both new and existing situations.

DOM-MCM: MCM was founded in 1932 to design, manufacture and market security components of all types for opening, closing and controlling access points of different kinds.

MG Serrature: Before long, MG Serrature specializes in the production of cylinders and locks for doors and establishes itself in the regional market. In the course of the years, MG grows nationwide while keeping its values of constant improvement and innovation of its production. Today MG operates in several European and non-European countries through distributors and specialized sellers.

VERDI: VERDI starts its journey in time during the 60s, Verdi began as a traditional brass manufacturer bathroom accessories that produced a variety of products. Verdi ensures that all of its products are made in the company's factory in Athens, from design to polishing all copper components, electroplating and final assembly of parts.

BARAZZA: In over 50 years of experience, the combination of Barazza and Made in Italy continues to spread values of excellence throughout the world. Each product is the result of advanced levels of processing: sinks, hobs, ovens and cooker hoods find their undisputed distinctive characteristics in the perfection of steel, in the exclusivity of the design and in the precision of performance. Today the company is present in over 50 countries and is growing thanks to the solid conduction of the sons of the two founders.

GUGLIELMI: Historic Italian Company in the taps sector, was founded in 1954 in Valduggia. Commitment, passion and dedication are the values of the Company, that has always been committed to the development and realization of products for bathroom, shower, kitchen and for outdoor spaces. Always attentive to the technological development and environmental sustainability, Guglielmi manufactures products equipped with technologies aimed at reducing water consumption and complying with strict international rules, saving energy and protecting the environment in the daily use. Guglielmi thus continues to innovate, creating new models, developing customized solutions for the global market and efficiently focusing on the customer.

ATC: ATC is the private label brand of Amara Trading Center — built on 47 years of expertise in furniture hardware and fittings. Every product in the ATC range is carefully chosen for quality, reliability, and functionality, designed to work beautifully in every room of the home. We didn't put our name on it by accident. We put it on products we'd use ourselves. ATC — Quality You Can Trust.

TASCA: Fratelli TASCA is a Venetian company located in Possagno (TV), a small town on the slopes of Mount Grappa. Under its brand TASCA, the company is acknowledged as manufacturer of premium quality kitchen sinks and bowls and it is well known in the European market for the quality and innovation of its products.

TASCA is always focused on new market trends and its Research and Development department works closely with the customers, in order to offer state of art and bespoke solutions. TASCA products stand out for their excellent quality, meeting the highest standards in terms of design, choice of raw material and construction, according to the best Italian manufacturing tradition.

AGB: Is an Italian company specialized in hardware systems for doors, windows and shutters. For seven decades, AGB has been providing manufacturers worldwide with optimal solutions for use and blocking of top quality, durable, lasting internal and external windows and doors. It is currently one of the most technologically advanced industries in Europe.

CELEGON: Since 1960, Hardware Systems has been known for its patented technologies. Celegon has always collaborated with leading companies in the furniture and closures sector to develop new handling solutions. The hardware systems developed and produced have to pass durability tests 100,000 openings/closures as required by the strictest European regulations.

FIMET: The company specializes in the production of handles, an essential element of furniture and interior design. Our philosophy is to strive to fully meet our customers' functional, quality, and style requirements.

SALICE PAOLO: Since 1937, Paolo Salice creates his line of classic handles at the turn of the 40-50s, taking advantage of the know-how acquired in brass working in his mechanical workshop. Salice Paolo offers a complete range of elements and accessories able to furnish an environment in a complete way and to respond to all the practical and aesthetic needs of its customers. The company also makes use of highly experienced collaborators in the classic furniture sector and designers such as Itamar Harari who offer their alternative vision in a traditional but constantly evolving field. A key concept of the Salice Paolo philosophy.

ATHMER: Based in Arnsberg-Müschede, is the leading international manufacturer of sealing and finger protection systems for doors and gates and the reliable partner. The owner-managed medium-sized company has more than 60 years of experience in the field of automatic door seals. It is part of the Julius Cronenberg Sophienhammer (JCS) group of companies. Automatic door seals can be found in various private as well as public application areas. Special seals for all-glass, pivot and sliding doors round off the range. The portfolio is complemented by athmer finger protection, which effectively prevents fingers from becoming trapped in manual and automatic doors.

VIEFE: The company was founded in 1932, at Viefte, we go beyond the design and manufacture of decorative accessories: we shake up spaces. We transform interiors around the world with our extraordinary accessories – knobs and handles for furniture, pull handles, wall hooks and door stoppers.
